Drawings

1. Figures 1-2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 1-32 are objected to because of the following informalities: Regarding claim 1, Applicant is suggested to delete the "wherein" clause at line 14, because it may raise a question as to the limiting effect of the language in a claim, that the limitation "wherein the length of each of the plurality of filters is lesser than the length of each of the plurality of subchannels" does not require to be performed. The same remark applies to claim 17.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 1, and 17 are objected to, but would be allowable if rewritten to overcome the objection set forth as above.
4. Claims 2-16, and 18-32 are objected to as being independent upon a rejected base claim, but would be allowable if the base claim rewritten to overcome the objection set forth as above.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. McGibney (US 6,741,643); Yousef et al.(US 2005/0169361); Skafidas et al. (US 2001/0036228); Ma et al. (US 2002/0060999) are cited to show path diversity equalization CDMA downlink receiver, which is considered pertinent to the claimed invention.
